

# Mario Berta

## Curriculum Vitae

---

### PERSONAL INFORMATION

Place of Birth	Winterthur, Zürich, Switzerland
Nationality	Swiss
Affiliation	RWTH Aachen University, Department of Physics
Email	bertamario@gmail.com

---

### CURRENT POSITIONS

- 11/2022 – present **Professor of Physics**, *Rheinisch-Westfälische Technische Hochschule (RWTH) Aachen*, Institute for Quantum Information.
- 10/2022 – present **Visiting Reader (Honorary)**, *Imperial College London*, Department of Computing.

---

### PREVIOUS POSITIONS

- 11/2020 – 10/2022 **Senior Research Scientist**, *Amazon Web Services*, AWS Center for Quantum Computing.
- 11/2020 – 10/2022 **Visiting Faculty**, *California Institute of Technology (Caltech)*, Institute for Quantum Information and Matter (IQIM).
- 09/2022 **Reader**, *Imperial College London*, Department of Computing.
- 10/2020 – 08/2022 **Senior Lecturer**, *Imperial College London*, Department of Computing.
- 09/2019 – 10/2020 **Consultant Quantum Cryptography**, *Cambridge Quantum Computing (CQC)*, Chessington Greater London.
- 08/2017 – 08/2020 **Lecturer**, *Imperial College London*, Department of Computing.
- 05/2016 – 07/2017 **Postdoctoral Researcher**, *Caltech*, IQIM, Advisor: Fernando Brandão.
- 02/2014 – 04/2016 **Postdoctoral Researcher**, *Caltech*, IQIM, Advisor: John Preskill.
- 06/2013 – 01/2014 **Postdoctoral Researcher**, *Eidgenössische Technische Hochschule (ETH) Zurich*, Department of Physics, Institute for Theoretical Physics, Advisor: Matthias Christandl.

---

### EDUCATION

- 06/2010 – 05/2013 **Doctor of Sciences (Dr. sc. ETH)**, *ETH Zurich*, Department of Physics, Supervisor: Matthias Christandl.
- 02/2009 – 05/2010 **PhD Student in Theoretical Physics**, *Ludwig-Maximilians-University (LMU) Munich*, Department of Physics, Supervisor: Matthias Christandl.

10/2002 – 03/2008 **Diploma in Physics (Master of Science ETH)**, *ETH Zurich*, Major in Theoretical Physics and Mathematics, Diploma Thesis Supervisor: Renato Renner.

---

## FUNDED RESEARCH

- 2023 – 2026 **PhD Scholarship**, *BMW Interdisciplinary Doctoral Program in Quantum Systems Integration*, EUR 175'000. Title: Qubit-aware quantum algorithm development for industrial use cases (together with Dominique Unruh)
- 2022 – 2026 **Co-Investigator + Postdoctoral Scholarship**, *Engineering and Physical Sciences Research Council (EPSRC)*, EUR 3'470'000. Title: Distributed quantum computing and applications (lead by Kin Leung and Myungshik Kim)
- 2022 – 2025 **PhD Scholarship**, *Excellence Cluster: Matter and Light for Quantum Computing (ML4Q)*, EUR 240'000. Title: Early fault-tolerant quantum algorithms
- 2022 – 2027 **Starting Grant**, *European Research Council (ERC)*, EUR 1'500'000. Title: Entropy for quantum information science
- 2021 – 2023 **New Investigator Award**, *Engineering and Physical Sciences Research Council (EPSRC)*, EUR 321'000. Title: Optimizing information processing for quantum technologies (not started due to industrial engagement)
- 2019 – 2021 **European Partner Fund**, *Imperial College London*, EUR 4'600. Title: Optimising near-term quantum technologies for information processing
- 2018 – 2023 **President's PhD Scholarship Navneeth Ramakrishnan**, *Imperial College London*, EUR 92'711.
- 2018 – 2022 **PhD Scholarship**, *Samsung-Imperial Industrial Collaboration*, EUR 40,100. Title: Quantum simulation and algorithms for new quantum materials (lead by Myungshik Kim)
- 2018 – 2019 **Doctoral Prize Fellowship Carlo Sparaciari**, *Engineering and Physical Sciences Research Council*, EUR 61,435.

---

## FELLOWSHIPS

- 2017 **Institut Henri Poincaré Paris**, *Visiting Researcher Grant*, EUR 5'000.
- 2016 – 2017 **Swiss National Science Foundation**, *Advanced Postdoc Mobility Fellowship*, EUR 94,700. Title: Optimization techniques for quantum adversaries and assistance
- 2010 **Institute Mittag-Leffler Stockholm**, *Visiting Researcher Grant*, EUR 5'000.
- 2009 – 2011 **Elite Network of Bavaria & German Academic Exchange Service**, *PhD Scholarship*, EUR 37'800.

---

## RESEARCH GROUP

- starting 03/2024 **Michael Cao**, *Postdoc*, Department of Physics, RWTH Aachen.
- starting 11/2023 **Yongsheng Yao**, *Postdoc*, Department of Physics, RWTH Aachen.
- 10/2023 – present **Aadil Oufkir**, *Postdoc*, Department of Physics, RWTH Aachen.
- 06/2023 – present **Aditya Nema**, *Postdoc*, Department of Physics, RWTH Aachen.
- 04/2023 – present **Sreejith Sreekumar**, *Postdoc*, Department of Physics, RWTH Aachen.
- 04/2023 – present **Gereon Kossmann**, *PhD Student*, Department of Physics, RWTH Aachen.
- 03/2023 – present **Julius Zeiss**, *PhD Student*, Department of Physics, RWTH Aachen.

- 01/2023 – present **Tobias Rippchen**, *PhD Student*, Department of Physics, RWTH Aachen.
- 10/2018 – present **Samson Wang**, *PhD Student Controlled Quantum Dynamics*, Department of Physics, Imperial College London.
- PhD Graduates **Navneeth Ramakrishnan, Hyejung Jee, Francesco Borderi.**

---

## INSTITUTIONAL RESPONSIBILITIES

- 2018 – 2019 **Undergraduate Admissions Panel**, *Department of Computing*, Imperial College London.
- 2018 – 2019 **Hiring Committee**, *Department of Computing*, Imperial College London.

---

## TEACHING ACTIVITIES

- 10/2023 – 02/2024 **Theoretische Physik IV: Statistische Physik**, *RWTH Aachen*.
- 04/2023 – 07/2023 **Quantum Algorithms**, *RWTH Aachen*.
- 02/2020 – 03/2020 **Statistics and Probability**, *Imperial College London*.
- 10/2019 – 12/2019 **Quantum Computing**, *Imperial College London*.
- 02/2019 – 03/2019 **Statistics and Probability**, *Imperial College London*.
- 10/2018 – 12/2018 **Quantum Computing**, *Imperial College London*.
- 10/2018 – 12/2018 **Mathematical Methods**, *Imperial College London*.
- 02/2018 – 03/2018 **Statistics and Probability**, *Imperial College London*.

---

## PROFESSIONAL ACTIVITIES

- Editorial Board Quantum Science and Technology IOPscience, 2023 – 2024
- Associate Editor IEEE Transactions on Information Theory, 2021 – 2024
- Guest Editor IEEE Journal on Selected Areas in Information Theory (JSAIT) special issue on Quantum Information Science, 2019 – 2020
- Organizer Mini-Symposium on Polynomial and SoS Optimization in Quantum Information, SIAM Conference on Optimization (OP20) 2021
- Co-Organizer Chair Quantum Shannon Theory, London Symposium on Information Theory (LSIT) 2019
- Program Committee 2023: Quantum Information Processing (QIP), IEEE International Symposium on Information Theory (ISIT), International Conference on Quantum Cryptography (QCrypt)
- 2022: Quantum Information Processing (QIP), IEEE International Symposium on Information Theory (ISIT), International Conference on Quantum Cryptography (QCrypt), Quantum Computation, Communication and Cryptography (TQC), Quantum Computing Theory in Practice (QCTIP) co-chair, IEEE Information Theory Workshop (ITW)
- 2021: IEEE International Symposium on Information Theory (ISIT), Asian Quantum Information Science (AQIS), Beyond IID in Information Theory
- 2020: Quantum Information Processing (QIP)
- 2019: Quantum Computation, Communication and Cryptography (TQC), Asian Quantum Information Science (AQIS)

	2018: Quantum Information Processing (QIP), Quantum Computation, Communication and Cryptography (TQC), Asian Quantum Information Science (AQIS)
	2017: Quantum Computation, Communication and Cryptography (TQC), Asian Quantum Information Science (AQIS), Information Theoretic Security (ICITS)
PhD Examiner	Imperial College London: Physics, Computer Science University of Copenhagen: Mathematics University of Nottingham: Mathematics ENS Lyon: Computer Science
Journal Referee	Nature Physics, Nature Communications, Nature Photonics, Physical Review Letters, New Journal of Physics, Physical Review A, Physical Review B, Journal of Physics A, Annals of Physics, Communications in Mathematical Physics, Annales Henri Poincaré, Letters in Mathematical Physics, Journal of Mathematical Physics, IEEE Transactions on Information Theory, Mathematical Programming, ACM Transactions on Quantum Computing, Quantum, Quantum Information and Computation, Quantum Information Processing, among others.
Conferences	Quantum Information Processing (QIP), Symposium on the Theory of Computing (STOC), IEEE Annual Symposium on Foundations of Computer Science (FOCS), International Cryptology Conference (CRYPTO), Conference on the Theory and Applications of Cryptographic Techniques (EUROCRYPT), International Conference on Randomization and Computation (RANDOM), Conference on Quantum Cryptography (QCrypt), IEEE Symposium on Information Theory (ISIT), Asian Quantum Information Science (AQIS), Quantum Computation, Communication and Cryptography (TQC), IEEE Information Theory Workshop (ITW), Information-Theoretic Security (ICITS).
Research Agencies	Engineering and Physical Sciences Research Council (EPSRC), The Royal Academy of Engineering, Natural Sciences and Engineering Research Council of Canada (NSERC), Netherlands Organisation for Scientific Research (NWO), Agence Nationale de la Recherche (ANR), Army Research Office USA (ARO)

---

## LANGUAGES

German	<b>Fluent</b>	<i>Mother Tongue.</i>
English	<b>Fluent</b>	<i>Speaking, reading, and writing.</i>
French	<b>Basics</b>	<i>Speaking, reading, and writing.</i>

---

## INVITED TALKS

09/2023	<b>IPAM Quantum Algorithms for Scientific Computation</b> , University of California Los Angeles, <i>Quantum state preparation without coherent arithmetic.</i>
09/2023	<b>Matter and Light for Quantum Computing</b> , Königswinter Workshop, <i>Quantum algorithms for the early fault-tolerance regime.</i>
05/2023	<b>Colloquium</b> , Technology Innovation Institute Abu Dhabi, <i>Quantum algorithms for the early fault-tolerance regime.</i>
03/2023	<b>Seminar</b> , Centre for Quantum Technologies Singapore, <i>Randomized quantum algorithm for statistical phase estimation.</i>
01/2023	<b>Seminar</b> , IBM Zurich, <i>Quantum state preparation without coherent arithmetic.</i>

- 05/2022 **Quantum Information Theory and Mathematical Physics**, Budapest University of Technology and Economics, *Chain rules for quantum channels.*
- 02/2021 **IPAM Entropy Inequalities, Quantum Information and Quantum Physics**, University of California Los Angeles, *Characterising quantum correlations of fixed dimension.*
- 12/2019 **Lyon Quantum Information Meeting**, École Normale Supérieure de Lyon, *Non-commutative Blahut-Arimoto algorithms.*
- 09/2019 **Quantum Information Theory and Mathematical Physics**, Budapest University of Technology and Economics, *De Finetti theorems for quantum channels.*
- 07/2019 **BIRS Workshop**, Banff International Research Station, *De Finetti theorems for quantum channels.*
- 06/2019 **Computer Science Seminar**, University of Warwick, *Quantum technologies for cryptography.*
- 06/2019 **Seminar**, University of Vienna, *Entropy and quantum information processing.*
- 06/2019 **Symposium on Mathematical Physics**, Heidelberg University, *Mathematics of quantum entropy.*
- 08/2018 **Modern Topics in Quantum Information**, International Institute of Physics Natal, *Matrix trace inequalities for quantum entropy.*
- 07/2018 **Basser Seminar Series**, University of Sydney, *Quantum technologies for cryptography.*
- 06/2018 **AI Summit London**, ExCeL London, *Quantum computing summit: the potential of quantum computing for enterprises.*
- 12/2017 **Conference on Analysis in Quantum Information Theory**, Institut Henri Poincaré Paris, *Matrix trace inequalities for quantum entropy.*
- 06/2017 **European Research Council**, Brussels, *Entropy for multipartite quantum systems.*
- 05/2017 **SIAM Conference on Optimization**, Vancouver, *Quantum bilinear optimization.*
- 04/2017 **Workshop Secure Communication via Quantum Channels**, Center for Interdisciplinary Research Bielefeld, *Converse bounds for private communication over quantum channels.*
- 11/2016 **Information and Complexity Day**, École Normale Supérieure de Lyon, *Deconstruction and conditional erasure of quantum correlations.*
- 10/2016 **Imperial College London**, Department of Computing, *The Quantum Revolution in Cryptography.*
- 10/2016 **QMath13: Mathematical Results in Quantum Physics**, GeorgiaTech, *Multivariate trace inequalities.*
- 03/2016 **APS March Meeting**, Baltimore, *Quantum coding with finite resources.*
- 07/2015 **Beyond IID in Information Theory Workshop**, Banff International Research Station, *Relative entropies of recovery and conditional quantum mutual information.*
- 06/2015 **Trustworthy Quantum Information Workshop**, University of Michigan, *Semidefinite programming hierarchies for quantum adversaries.*

- 06/2015 **Institute for Quantum Computing Colloquium**, University of Waterloo, *Quantum coding with finite resources.*
- 03/2015 **School in Quantum Information and Computation (WECIQ)**, University of Campina Grande, *Entropy inequalities.*
- 02/2015 **Western States Mathematical Physics Meeting**, Caltech, *Quantum adversaries via operator space theory.*
- 03/2014 **Physics Colloquium**, Louisiana State University, *The uncertainty principle in the presence of quantum memory.*
- 01/2013 **Beyond IID in Information Theory Workshop**, University of Cambridge, *Channel simulations.*
- 03/2010 **Workshop on Complex Quantum Systems**, National University of Singapore, *A conceptually simple proof of the quantum reverse Shannon theorem.*
- 07/2009 **Summer Workshop on Quantum Information**, University of Cambridge, *Single-shot quantum state merging.*

---

## CONTRIBUTED TALKS

The most competitive and important conference is QIP in quantum information science (acceptance rate around 20% — 13 talks accepted), QCrypt in quantum cryptography (5 talks accepted), CRYPTO in cryptography (one talk accepted), and the main event in information theory is ISIT (17 talks accepted).

(\*) indicates delivery by co-author.

- 07/2023 **Beyond IID 2023**, Beyond IID in Information Theory, Universität Tübingen, *Entanglement monogamy via multivariate trace inequalities.*
- \*07/2023 **TQC 2023**, Quantum Computation, Communication and Cryptography, Aveiro Portugal, *Qubit-efficient randomized quantum algorithms for linear algebra.*
- \*06/2023 **ISIT 2023**, IEEE Symposium on Information Theory, Taipei Taiwan, *Broadcast Channel Simulation.*
- \*04/2023 **QCTIP 2023**, Quantum Computing Theory in Practice, Riverland Cambridge, *Qubit-efficient randomized quantum algorithms for linear algebra.*
- \*02/2023 **QIP 2023**, Quantum Information Processing, Ghent University, *A streamlined quantum algorithm for topological data analysis with exponentially fewer qubits.*
- \*02/2023 **QIP 2023**, Quantum Information Processing, Ghent University, *Sparse random Hamiltonians are quantumly easy.*
- \*02/2023 **QIP 2023**, Quantum Information Processing, Ghent University, *On generalised quantum Stein's lemmata and the reversibility of quantum resources.*
